

Te Hinengaro Mīharo

Kanohi ki te kanohi is the best way to make language connections especially when you kōrero face to face.

Pēpi has definitely started to explore the world. Pēpi watches, copies and likes to imitate and repeat activities.

When pēpi starts to point, you'll know they are making some big steps in communication. Pointing at something might mean 'What's that?' or maybe 'I want that'.

Give pēpi heaps of praise when you see pēpi concentrating and trying hard to do new tasks.
