

What's Happening..

Pēpi Says:

I'm amazed at what my tongue can do. I like to practice all the different sounds.

I'm beginning to have tantrums – that's me struggling with my emotions!

I like to do things myself, just like Māui Tikitiki.

I am interested in other tamariki and I'm starting to learn about getting along with others.

I'm starting to use more words and my whānau know what I like and don't like.

I have my favourite pukapuka and recognise and respond to the pictures.
